WILL RESUME MOVEMENT WITHOUT DELAY.

Information Received From Manila Indicates Reconnoitering Party Has Located Large Body of Insurgents, Believed to Be Under Command of Aguinaldo.

Washington, April 8.—[Special]—MacArthur's division, which has been resting at Malolos, will resume their northward movement without delay.

Information received from Manila, indicates that a reconnoitering party has located a large body of insurgents, believed to be under command of Aguinaldo.

Gen. Otis may make demonstrations against the southern bands of insurgents, while MacArthur continues his northern movement.

Lawton Advances to the South

Manila, April 8.—[Special]—Lawton tonight advances upon the Philippines south of Manila. The expedition consists of fifteen hundred picked men and three army gunboats. The troops with him were selected from the Fourth Cavalry, Fourteenth Infantry, North Dakota, Idaho and Washington Volunteers.

All these men are tried fighters and an aggressive campaign is looked for. Two mountain guns were also taken along.

Lawton's first objective point in the south is the east shore of Laguna Lake. The troops will be loaded on Caskoe and taken in tow by gunboats.

The journey up the Pasig river was marked only by the cheering of comrades left behind.

The men are in excellent spirits and eager for a fray.

Manila, April 8.—Natives returning to Malolos report that Montenegro, one of Aguinaldo's leading generals, was among those killed in the recent fighting.

Three hundred and seventy natives have returned to Mariquina from their various refuges and have declared their friendship for the Americans.

The United States Philippine commissioners are holding daily meetings, and are receiving all persons who call. Chairman Schurman says that the reception of the commission's proclamation by the natives is highly satisfactory, and that many Filipinos, Spaniards and foreigners realize the fairness and straightforwardness of its statements.

Reconnoitering parties from Malolos are feeling of the enemy, but there is no fighting.

Transport Hancock Arrives.

Washington, April 8.—Quartermaster Long, at San Francisco, announces the safe arrival from Manila of the transport Hancock. There were no deaths on her passage out and back. The Hancock will sail on April 15 for Manila with the Twenty-first Infantry, now at Plattsburg barracks, New York. If the Hancock is not ready by the 15th, she will sail on the 25th. The transport Ohio, now bound for San Francisco, will carry the Thirtieth to Manila.

Gen. Otis cabled the war department, announcing the safe arrival, on April 7, of the transport Valencia, after a successful passage. The Valencia sailed from the Pacific coast, and had on board 13 officers and 107 men from different regiments, and 7 civilians.

Watching the Rebels.

Washington, April 8.—Major Gen. MacArthur and the division under his command, which have been resting at Malolos, will resume the northern movement without further delay. Information which has been received by the officials from Manila indicates this movement to be impending. The reconnoissance parties, which have been sent out from Gen. MacArthur's front have reported that a large body of the insurgents, under the command, it is believed, of Aguinaldo, was formed in the vicinity of Calumpit, and it is proposed to scatter them or crush them if they will stand up and fight.

Dewey Asks for Supplies.

Washington, April 8.—Admiral Dewey has cabled the navy department asking that six months' engineering supplies be sent him at Manila. The department will probably use the Buffalo, now on its way to New York, for the carriage of these stores. The admiral's request is an indication of his belief that it will not be possible to materially diminish the American fleet in the Philippines in the near future.

To Hold Us Responsible.

Madrid, April 8.—Prime Minister Silveira says he expects to receive the American ratification of the treaty of peace about April 20. Diplomatic relations will then be re-established with the United States, and Spain will immediately demand from the American government the release of the Spanish prisoners held by the Filipinos, this being provided for in the treaty.

## OFFICIALS STUDY SAMOAN SITUATION

KAUTZ'S ATTITUDE HELD TO BE UNASSAILABLE

From a Diplomatic Standpoint—His Vigorous Action, It Is Believed, Will Clear the Way for Proposed Commission by Practically Restoring Status Quo.

Washington, April 8.—[Special]—Officials of the state navy departments are studying with interest the detailed reports now coming in of recent occurrences in Samoa.

Kautz' attitude is held to be unassailable from a diplomatic standpoint.

His vigorous action it is believed will clear the way for the proposed commission by practically restoring status quo.

Apia, Samoa Islands, March 24 (via toa has been crowned king and Mataafa has been driven into the brush. The United States cruiser Philadelphia and the British warships Porpoise and Royalist are shelling the villages all along the coast in which Mataafa and his followers have taken refuge. Partisans of Malletoa, who were sent into exile by the Mataafa provisional government, have been brought back to their homes. The city is under martial law. An unknown number of Mataafa's followers have been killed and wounded. Two British marines and one American have been killed, while four British and two Americans have been wounded. British and Americans acting together have declared that the decisions of the chief justice, having been given under the Berlin treaty, must be enforced. Such is the condition of affairs here as the steamship Mariposa sails. The Philadelphia arrived here March 6, and on March 11 a council was held aboard the United States cruiser. There were present three treaty powers. At the council it was the opinion of the British and American representatives, constituting a majority of the council, that the decision of Chief Justice Chambers' must be enforced. This conclusion was embodied in a proclamation that was issued by Rear-Admiral Kautz, declaring that the provisional government could have no standing under the treaty of Berlin, that it had been recognized for the sole purpose of preserving peace and order, and directing that Mataafa and the thirteen chiefs associated with him go quickly to their homes and that Malletoa Tanus be recognized as king.

German Consul Rose, two days later, on March 13, issued a proclamation declaring that he did not concur in this action, that he continued to recognize the provisional government until contrary instructions were received from his own government. This proclamation encouraged the natives, and the Mataafa forces concentrated in the bush surrounding Apia and prepared to make a foray to capture the city. It was then determined to adopt extreme measures. At 2 o'clock that day the Philadelphia threw the first shell into the camp of the Mataafa forces just outside the city. The British ships Royalist and Porpoise immediately followed suit. Shelling continued for several days.

At the present time there is little or no fighting going on. The streets are being patrolled by men from the American and British men-of-war. No one can pass the lines without a pass issued by the naval authorities. Malletoa is in power in the city or wherever a shell from the men-of-war can reach. Mataafa hangs around the outskirts of the city, destroying plantations and villages. It is reported that Vallima, the home of Robert Louis Stevenson, has been destroyed. It is the intention of the Americans and British as soon as they can organize some auxiliary native forces to extend operations into the country and make a determined effort to capture Mataafa, or, at any rate, to break up his organization and capture his troops.

Say Germans Armed Samoans.

New York, April 8.—A special from San Francisco to the Times says a letter from an officer on the United States cruiser, now at Apia, says there is evidence that the Samoans in Mataafa's party in the recent engagements have been using shells furnished by Germans on the German cruiser Falke.

Say Germans Armed Samoans.

## WANT JANESVILLE PLANT

Appleton Parties Anxious to Get Hold of Northwestern Novelty Co.

While doing all in their power to secure new enterprises Janesville people should not forget that industries already established have great possibilities. For the last two weeks Appleton parties have been trying to buy a controlling interest in one Janesville concern, the Northwestern Novelty Co.—Senator Whitman, the wealthy Appleton furniture and toy manufacturer, has been active in the movement but Geo. Woodruff, who now owns the concern, is loath to see it leave Janesville. If sufficient capital can be provided to handle the business to advantage in this city outside propositions will not be considered.

A thing that recommends the Northwestern Novelty Co. especially is the fact that the experimental stage of the business has passed. Orders are now coming in steadily and the output is only limited by the capital available for raw material. Many of the machines were built by J. W. Clark to meet the special requirements of the business and an immense amount of goods can be turned out. The production cost is lower, it is declared, than in any concern of the kind in the country.

PINK AND WHITE OUTING COSTUME FROM HARPER'S BAZAR

Among the most dainty of summer fabrics are the light colored jeans. Like the popular pique this material may be obtained in the very deep shades of bright colors as well as in white and medium shades. Black jeans is a summer novelty which is scarcely likely to prove as popular as black pique, because of the brownish tint which is always seen upon it, even while new. In the lighter shades of gray, blue, rose pink, and red the satiny finish becomes an especial attraction. Our design taken from Harper's Bazar and for which cut paper pattern are furnished is described as follows: The skirt has a gored front breath and two side gores, making in all three pieces in the skirt. There is an allowance at the bottom of this garment for a six-inch hem. The position for the trimming, which consists of double folds of dotted jeans stitched at the upper edge of the skirt, is marked upon the pattern. The folds have a further finish of white cotton braid stitched flat upon the edges. Where desired this trimming scheme may be reversed, and the braid made to cover the stitching upon the top of the fold. The folds should be made of bias material, and care should be exercised in fitting the points in back and front of gown and of the collar. The skirt is finished with two single pleats in the back which meet in the centre. The bodice is a kind of bloused and belted Eton. It has a seamless back, with

but the nicest suggestion of gathering in the centre at the waist. The front is slightly full, and even suggests a pouch; but where this is not desired the material may be drawn smooth, so that the small flaring revers will just meet the band. In the original design these began above this point, as may be seen in the illustration. The collar is a dainty development of the sailor-shaped neck garniture. The revers and collars are edged with bands of the dotted material outlined with braid. This jacket may be worn with blouse or chemise, as may be preferred. The front meets just below where the collar points converge, and a fancy tie, of which a pattern is included with the costume, is tied in a sailor-knot at this point. This tie does not pass around the neck of the bodice, but is attached just under the points of the collar. It may be made of taffeta, mousseline, or of bright Persian silk. The sleeve is large enough to admit of wearing a thin under-blouse sleeve if desired. They are box-pleated at the shoulder, and finished at the wrist with deep turned-back cuffs edged with cotton braid. The design is one which would be effective if treated in blue flannel for yachting purposes, or in such lightweight black or colored material as Henrietta cloth or cashmere.

This costume will require 12½ yards of pique or jeans to make it as represented in the illustration.

Twenty-Five High School Boys Are Anxious This Year.

Numerous candidates are practicing hard these days with the expectation of being members of the High school baseball team for the coming season. Roy Palmer will act as captain this year, and his good work for the team in the past is sufficient guarantee that he is capable of filling the position with credit.

Twenty-five candidates are available this year, and some good material has already showed itself.

It is expected that a High school league will be formed this season in the southern part of the state.

"Blessed Hour of Our Dinners."

Said the poet, and the meal is really enjoyable when eaten at the dining rooms of The Mrs. Clark Co., 151-153 Wabash avenue, Chicago, or at the restaurant on the 7th floor of the Association building in La Salle street, which is also run by this company. The cuisine and service are unexcelled.

## LOCAL STUDENTS AWARDED MEDALS

ANNUAL HIGH SCHOOL MEDAL  
CONTEST HELD.

Took Place in the High School Auditorium Last Evening—Misses Amy Woodruff, Dollie Enright, Ethel Sayre and Fred Holt Carry Off the Honors.

The annual High school contest was held in the auditorium last evening, which is said to have been the most interesting ever held in the city.

The medal for extemporaneous speaking was won by Fred Holt; the Lovejoy medal for orations will be won by Miss Dollie Enright; the Loomis medal for declamation will be in the possession of Miss Amy Woodruff, and Ethel Sayre the honor of being the first one to win the Mahoney medal for original poetry. With the exception of Miss Sayre all the medal winners are members of the class of '99.

There was a large attendance. A feature that added much to the evening's enjoyment, was the vocal selections rendered by the male quartette from the Beloit College, which was composed as follows: First tenor, Frank Thomas; second tenor, Will Wheeler; first bass, Ernest Kepple; second bass, Rudolph Warner. Mr. Warner, a member of the quartette, also played a violin solo, which was well received.

The contest program was in charge of Superintendent D. D. Mayne. "Frances Willard" was the subject of Miss Grace Tennant's oration; Miss Imogene McDonald eulogized "The Red Cross"; Ray Owen's oration was on "The White Man's Burden." Dollie Enright closed the oratorical contest with the oration, "The Puritan," which captured the prize.

Fred Holt opened the contest in extemporaneous speaking. His subject was, "Is the Total Effect of High School Athletics Beneficial or Otherwise?" The subject, "Should Confederate Soldiers Be Recognized By the United States Government?" was handled by Miss Imogene McDonald. Victor Marquisee spoke on "Should the United States Adopt the Policy of Expansion?" Thomas Costello's speech was on "Is the World Growing Better or Worse?"

The original poems showed much talent and were as follows: Miss Nellie Van Bynum, "Hope"; Miss Ethel Sayre, "Nature"; Miss Dell Miltimore, "To a Bird"; "The Woods in Autumn," and "A Farmer's Idea of the High School." Miss Dollie Enright, "Life," and "A Winter's Evening."

The contest in declamations was very good. Miss Amy Woodruff's rendition of "Lady Maud's Oath" was fine. Miss Nellie Rumrill recited "Trading Joe," a humorous selection. Joseph Burns won praise for his rendition of "The Unknown Speaker," and Joseph Fisher did exceedingly well in his selection, "Uncle Dan's Apparition and Prayer."

The judges were Prof. Arthur A. Upham and Prof. George Schutts, both of Whitewater.

## "Ignorance of Law Excuses No One."

This maxim applies with especial force to ignorance of the laws of health. Every man and woman of intelligence knows the physical fact that the blood reaches the remotest parts of the human body. If there is a disturbance anywhere, why should one ignorantly suppose that the seat of the malady is local?

Is it not more rational to suppose that the impure condition of the blood is doing the mischief, as it is? Experience has demonstrated the fact that this is the case in 95 per cent. of complaints.

If your "life's blood" is pure, nature will take care of the rest. Hood's Sarsaparilla enables you to cleanse your blood of all impurities and make it strong and wholesome. It never disappoints.

**Ulcer**—"A little sore on my ankle grew until as large as a saucer. Doctors said it was an ulcer and incurable. After two years experimenting I took Hood's Sarsaparilla and the sore completely healed." JOHN S. CURRIER, West Lebanon, N. H.

**Coultre**—"Coultre was so expensive in medical attendance that I let mine go. It made me a perfect wreck until I took Hood's Sarsaparilla which entirely cured me." Mrs. THOMAS JONES, 120 South St., Utica, N. Y.

**Rheumatism**—"I was practically helpless from rheumatism in my shoulder. Hood's Sarsaparilla cured me and ever since is a household favorite." Mrs. M. E. POWERS, 4212 St. Lawrence Ave., Chicago, Ill.

**Running Sores**—"Five years ago my affliction came; a running sore on my leg, causing me great anguish. Hood's Sarsaparilla healed the sore, which has never returned." Mrs. A. W. BARRETT, 39 Powell St., Lowell, Mass.

**Dyspepsia**—"For many years I suffered with dyspepsia. I resorted to Hood's Sarsaparilla and its continued use entirely cured me." HARRY L. MORRIS, 100 Mulberry Street, Newark, N. J.

## Let Us Overhaul Your Bath Room.

A great many bath tubs in this city were put in years ago. Like likewise water closets. They are foul, ill-smelling and unwholesome and a menace to health. Bath tubs were boxed in and pipes out of sight, often leaking gas and accumulating dirt. You should throw these out and put in a bright porcelain tub and a syphon water closet with exposed nickel water pipes. You will take more comfort than you can imagine. The price for this kind of this kind of work has got down to reasonable figures now. If you think of doing anything to your bath room. AND WHERE HE'S BOUND FOR  
IN THE OTHER WORLD.Unless His Relatives Come to His Re-

Bate—Various Phases of the  
Hereafter.

Chinese gods are like nightmares in broad daylight. At the temple doors are always two—one on each side—in the most fearful passion, twisting their faces and swinging mallets, and evident intent on doing something most dangerous. He's a foolish, half-witted chap is the Chinese devil, for whereas ordinary mortals can see with even half an eye, and that with a cast in it, that the guardian gods are only stucco, the poor deluded devil believes they are real, and, being afraid of receiving a bang over the head, never ventures too far.

When a Chinaman is buried he isn't really buried, but the coffin is placed on the ground and earth is shoveled

coal-black head, the lower part of which is literally mouth, stretching from ear to ear. Their laugh is something to remember in your dreams, so that you wake up in a fit of cold perspiration, yelling for it to be taken away. Accompanying illustrations are made from drawings by Chinese artists.

There was a victim being crucified, and the lumps were slowly shortening him at the knees with a red-stained saw. Standing in front of the wooden bars—that prevent the live public from coming in direct contact with this particular hell—were two young men, flapping their long Chinese sleeves in agony of despair, swinging their pig tails in dismay, while tears trickled obliquely out of their almond-shaped eyes because the monk at the entrance had told them that was the exact fate of their old father at that particular moment. They groaned and sobbed; then they got a gong and relieved their sorrow by thwacking it; they pushed a cup of rice and some hard-boiled eggs through the bars as sustenance to their relative. In his trials; then they paid cash down for a big check that would be dispatched that night to the nether regions, conciliate the elders, and cease the sawing at the knees.

## New Bishop for Indiana.

Laporte, Ind., April 8.—Bishop White of this diocese of the Protestant Episcopal church makes the announcement that the bishop of the new Indiana diocese will be chosen June 6. Bishop White has relinquished his bishopric duties in the southern portion of the state and will make Michigan City the seat of his diocese. There is a good deal of quiet politics in the church in anticipation of the action of the convention in June and though there are half a dozen aspirants for the place the choice cannot even be guessed at. Any missionary bishop or priest of the church who has reached the required age is eligible. Prominent Chicago Episcopal clergy are being named in connection with the bishopric.

## Gained 22 Pounds in 6 Weeks.

From the By-Stander, Macomb, Ill.

Alderman Louis W. Camp, of our city, has quite astonished his friends of late, by a remarkable gain in weight. He has gained 22 pounds in five weeks. Those of his friends who do not know the facts of his sickness will read with interest the following: "I was broken down in health and utterly miserable," said Mr. Camp to our reporter. "I was unable to work much of the time and so badly afflicted with a form of stomach trouble that life was a veritable nightmare. I tried various remedies, but during the six months of my sickness I obtained no relief. I had always been a robust, healthy man and sickness bore heavily upon me. About two years ago I was advised to try Dr. Williams' Pink Pills for Pale People. I purchased one box and received so much benefit that I used five more and was entirely cured. I gained twenty-two pounds in six weeks. Since I stopped taking the pills I have scarcely had an ache or pain."

Interviewing the Alderman.

"Dr. Williams' Pink Pills restored me to health, and I most heartily recommend them."

L. W. Camp on oath says that the foregoing statement is true.

W. W. MELOAN, Notary Public.

Following is the physician's certificate as to Mr. Camp's present condition:

I am a regularly licensed physician of Macomb, McDonough County, Ill. I have very recently examined Mr. L. W. Camp as to his general physical condition, and find the same to be all that could be desired, with appetite and digestion good, sleep well, and has all the evidences of being in a good physical condition. SAML RUSSELL, M.D.  
Subscribed and sworn to before me this 30th day of September, 1897.  
W. W. MELOAN, Notary Public.

Good  
Common  
Sense.

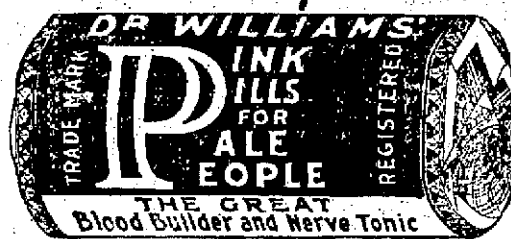

Common sense teaches us that a debilitated system cannot be built up by continued purging which reduces the strength of a body already weakened by disease. Most so-called blood builders are purgatives.

Dr. Williams' Pink Pills for Pale People do not act on the bowels. They build up the blood and strengthen the nerves.

Bear the name in mind and when you need a tonic, try the remedy which thousands of authentic cures prove to be most efficacious.

The same good sense that leads you to give Dr. Williams' Pink Pills for Pale People a trial will prompt you to refuse any substitute an unscrupulous dealer offers. A druggist who says he has "something just as good," or "the same except in name" is dishonest and does not deserve your trade.

The wrapper of the genuine package is printed in red ink on white paper and bears the full name.

Fifty cents per box at druggists or direct from the Dr. Williams Medicine Company, Box V, Schenectady, N. Y.

1792—David Rittenhouse, eminent American mathematician and astronomer, born at Philadelphia, Pa.; died in Philadelphia, 1796. ## WAGES AND TARIFF.

The Chicago Inter Ocean finds a lesson in the fact that the American Steel and Wire company recently advanced the wages of its 36,000 employees from 5 to 10 per cent. The advance to employees earning \$1.50 a day was announced as 10 per cent; to employees earning from \$1.55 to \$2.75 per cent, and to employees earning from \$2.05 to \$2.50 per day, 5 per cent. This is an increase of pay to labor by this one company of nearly \$1,000,000 per annum, or 2 1/2 per cent. on the preferred stock of the company, which represents money invested.

The company that makes this advance in wages controls the barbed wire, rod and nail business of the country, and is spoken of as a trust. It will probably strike the workmen that it trusts are aggregations of all the evils of industrial life little attention would be paid to labor, and that a trust would not voluntarily advance wages.

However, no demand was made on the American Steel and Wire Company by its employees. The company advanced wages simply because of the prosperous times. Business has improved under the Dingley law and under the prospect for increased trade in the future under the expansion policy. Last year there was an increased demand from Europe and Asia for wire goods and nails. Our exports of cut wire and other nails amounted to 32,222,000 pounds in 1896, as against 53,843,000 pounds in 1897, and 71,657,000 in 1898. In December, 1897, our exports of wire amounted to 10,226,000 pounds. In December, 1898, notwithstanding the disturbances, incident to war, our exports of wire were one-half larger, or 15,680 pounds. Our exports of wire in 1896 amounted to \$5,216,000 pounds; in 1897 to \$19,387,000, and in 1898 to \$27,306,000. This ratio of increase extended to all lighter manufactures of iron and steel, laying the basis for the benefits which now are accruing to the American laborer.

The tenor of the reports from the Klondike does not change. Acting Secretary Meiklejohn has received information that miners on the Copper river are in a starving condition. Although Capt. Abercrombie and Glenn have full instructions to send relief to any who may be suffering along the route of their expeditions to Copper river and Cook's inlet. Mr. Meiklejohn has sent further instructions by telegraph to Capt. Abercrombie to take medical and other supplies to Copper river and make every effort to assist the miners reported destitute and suffering.

None of the ships sunk at Santiago can be raised. Acting Secretary Allen has received a letter from the manager of the Neptune company, the great Swedish wrecking corporation, announcing that it is not possible to raise and repair the vessels of Cervara's fleet.

A scientist has figured out that "the chance of two finger-prints being alike is not one in 64,000,000." Verily, the world "do move."

ART AUXILIARY  
HELD RECEPTIONUNIQUE GATHERING AT THE  
LINCOLN SCHOOL.

Many People This Afternoon Attended and Inspected Janesville's First Model School Room—Handsome and Inspiring Pictures Displayed—Help Educate the Pupils Who Attend.

Many people visited the Lincoln school this afternoon and inspected a model-arranged school room.

Instead of finding a depressing and uninviting room the public were treated to an agreeable surprise.

The white walls had disappeared, and in their place were handsome ones of olive green color, with picture moulding.

The ceiling was also improved, and from the walls hung six pictures that were recently purchased.

All this transformation scene has taken place within the past few days in the primary room of the Lincoln school, under the auspices of the School Art Auxiliary.

The object is for the encouragement of the pupils who attend and to make their daily surroundings more pleasant.

The first primary room of the Lincoln school was selected for the reason that it was one of the most cheerless in the city.

From 3 to 6 o'clock this afternoon, a reception was tendered the public by the School Art Auxiliary for the purpose of letting everybody see the kind of work to which this organization is devoting its best efforts.

Details were explained by the ladies interested in the work and no doubt the citizens of Janesville who attended realized fully the vast amount of good that is to be derived by this movement.

In a school room where the surroundings are most inviting the pupil is better satisfied to remain and study. Members of the School Art Auxiliary will extend their work to other rooms just as soon as they find themselves able to. At present, what is needed is a larger membership, which means more money in the treasury. To become a member for one year requires the small sum of twenty-five cents.

Just as soon as the necessary cash is secured, the good work will be extended.

## OFFICIALS LOOKING FOR DEPOT SITE

WERE HERE YESTERDAY MAKING INSPECTION.

In the vicinity of Race and North Franklin Streets they spent much time—were near the Hanson Furniture Factory—came and left on the Quiet.

In their special car, the following officials of the Chicago, Milwaukee & St. Paul railroad arrived in Janesville yesterday:

General Superintendent H. R. Williams, Chicago; Assistant General Superintendent David Bush, Milwaukee; and Division Superintendent H. B. Earling, Milwaukee.

The object of their visit here was to make a personal inspection of several pieces of land in view of locating the new passenger station that will in all probability be completed here this summer.

Soon after their arrival, the three gentlemen started out afoot and soon were inspecting property between Jackson and Franklin streets.

Here they remained for some time, carefully studying and making a rough sketch of property on both the north and south sides of the track.

On North Franklin street they also spent much time in the vicinity of Race street.

That the Milwaukee road passengers have had considerable trouble of late years in reaching the present passenger depot on account of freight trains on the Northwestern road blocking the street crossing, is a matter that the Milwaukee road officials are now taking into consideration. With a passenger station on North Franklin street the track crossing trouble would all be avoided on account of the high trestle that now spans that street.

From North Franklin and Race streets the officials went to the east side of the river and for fully two hours looked over the lay of the land in the vicinity of the Hanson Furniture company factory.

They then left town without leaving much desired information behind.

"I am in no position to talk," said a local employee of the road this morning, "but from what I could learn it is quite evident that the officials were here yesterday for no other purpose than to look up a location for the proposed new depot."

While here they spent some time looking over the ground on both sides of the river.

"At the depot they talked freely on the subject but would not say anything in reference to favoring any special location."

## FRANCIS MURPHY AT ASHLAND

Local Friends Hear From the Noted Temperance Worker.

Local friends have heard from Francis Murphy who will soon begin a series of gospel temperance meetings at Ashland, Wis. Mr. Murphy says: "I arrived in the city last night and will spend the next few days in resting and looking over the field, when I will commence a series of temperance meetings." He also said "I am accomplishing much for the cause of temperance."

Since leaving the city, Mr. Murphy has been making a tour of the cities in the northern part of the state and wherever he visits good results are shown by the flattering reports of the press.

Local temperance workers are trying to secure the valuable services of Mr. Murphy, who may return in the near future and give another series of his exceptionally interesting lectures.

## GROUND FROZE SEVEN FEET

Water Company Found it Six Feet and Seven Inches

William Hyzer, superintendent of the Janesville Water company, says that in the First ward near the cemetery, water company workmen have found the ground frozen to a depth of six feet and seven inches.

In the Riverview Park district, broken pipes this winter have caused more trouble than in any section of the city. When the water mains were first extended into the park district, the expense was borne by George L. Carrington and to lessen the cost he laid the pipes no deeper than it was absolutely necessary.

This is why the frost has found no difficulty in reaching them. In another section of the city a seven foot frozen depth was found.

## ATTEND MACHINE MEN MEET

Janesville Machine Company Was Represented at Madison.

J. A. Craig and S. M. Smith of the Janesville Machine company, were in Madison this week to attend a meeting of the implement and vehicle manufacturers and jobbers of Wisconsin.

The object of the meeting was to organize an association of machine men for the furtherance of the best business and social relations among those of the craft. The afternoon was spent in extended discussion of a scheme of organization, some insisting upon reaching a certain numerical membership before organizing and others wishing to organize on any basis.

**SUPPER.**  
Chicken Sandwiches. Rolls. Olives.

**RULES FOR ROASTING.**—The heat should be great at first in order to retain the juices, but it should afterward be decreased so that the meat should cook more slowly and evenly. Meat should be raised two inches from the bottom of the cooking pan. Racks are made for this purpose. Wipe the meat with a damp towel; then dredge it lightly with salt, pepper and flour. Sprinkle a quantity of salt and flour on the bottom of the pan and put the meat into the oven. Watch carefully, and when the dry flour in the pan turns a dark brown pat in just enough water to cover the bottom of the pan. After the meat has become brown it should be basted every quarter hour and then with salt and flour. Renew the salt and flour on the bottom of the pan and the meat should be basted with a better flavored than when it is basted occasionally. The time of cooking depends upon the size and weight of a piece of meat. A roast weighing eight pounds will require an hour's cooking.

## MYERS SECURES WATERTOWN HOUSE

MANAGE IN CONNECTION WITH LOCAL THEATRE.

Made the Necessary Arrangements With the Concordia Society at Watertown—Fine Line of Attractions Already Been Secured for Janesville Next Season.

Peter L. Myers, manager of the Myers Grand opera house, was in Watertown, Wis., yesterday, and closed a contract whereby he leases the Watertown opera house for one year from date with the privilege of longer time.

The Watertown house has for the past four years been under the management of the Concordia society of that city.

Not being well informed on traveling attractions the Concordia society were unable to give the business the attention that it required and the result has been that the citizens of Watertown have had to put up with the poorest of attractions.

By this new change in arrangement, nothing but the best will be booked by Manager Myers, and the citizens of Watertown can rest assured that they will be given attractions equal to those secured by Janesville, Oshkosh, Fond du Lac, La Crosse and Madison.

The Watertown opera house is a brick structure, located in the heart of the business section. It has a seating capacity of eight hundred and is modern built in many ways.

Good Attractions.

Janesville will not suffer for the want of first class attractions this coming season as Manager Myers has already booked several that would do justice to cities many times the size of Janesville. Among the shows that have been booked are the following:

"Keller" the magician.

Bell Archer, in "A Contented Woman."

Oliver Scott's Minstrels.

"What Happened to Jones."

"Mr. Plaster of Paris."

Otis Stinner.

Modjiska. Her production will be left with the public to decide.

Louis Morrison, in "Frederick the Great."

Hoyts, "Day and Night."

Robert Mantell.

Manager Brown, of Milwaukee, is now in New York, booking attractions for the Janesville house as well as the Davidson in Milwaukee, and when he finishes his work there is no doubt but what the Bower City will be supplied with the greatest line of shows for the season of 1899 and 1900 that have ever been brought here in any one season.

## TWO PLEASANT CARD PARTIES

Mrs. Wm. Richter and the Misses Koebelin Entertain

Mrs. Wm. Richter pleasantly entertained a number of her friends last evening at a progressive cinch party at her home in the Second ward. H. Marko won first prize, while Mrs. Louise Falk, of Chicago, captured the consolation prize. Refreshments were served and the crowd dispersed shortly after midnight.

Misses Eleanor A. and Madeline M. Koebelin gave a very pleasant card party last evening at their home, 290 South Main street. Refreshments were served. F. H. Koebelin took first prize and James A. Fathers the second.

About Maple Sugar.

We cannot say too much about this new Ohio maple sugar we have lately received. It is even better than we expected, and is far ahead in flavor of anything we ever put into stock. The purity cannot be questioned. The man who makes it we know personally; he is a relative of one of Janesville's business men. A First ward lady came in the other day and bought some of it. She knows good sugar, too; and ever since then she has been telling her friends how good it is. We are selling maple sugar from her recommendation. Costs only 12½c per pound. No higher than cheap impure stuff. Sanborn.

Dr. N. E. Woods, who visits Janesville once a month, has the distinction of looking enough like the late Joseph Medill so that his picture was used to illustrate an obituary notice of Mr. Medill, published in Munice, Indiana.

## MUCH UNDESIRABLE TOBACCO

Local Buyers Say That Much Remains in Growers' Possession

In speaking of the local tobacco market this week's issue of the Farm and Home says:

"The buying of the '98 crop in this section is rapidly drawing to a close, for the good reason that there is but little more to buy. The scene of activity has been shifted to portions of Dane county, where there are yet some crops unsold. Local dealers claim that those crops remaining unsold in this section are of undesirable quality or are held for a higher price than present market conditions warrant their paying."

"The farmers are delivering just as fast as the buyers will receive, as they are anxious to deliver before spring's work begins. The fact that there are yet several feet of frost in the ground does not give promise of a very early spring, but there is no great cause for alarm as the cold weather must let up soon."

"In old goods the market has been rather strong during the past few days and a considerable quantity has moved out of the state, shipment being very liberal."

## LARGE FACTORY FOR BOWER CITY

SASH AND DOOR INDUSTRY SECURED.

David K. Jeffris Will Erect Model Two Story Building on North River Street—Will be Most Complete Throughout—Will Give Employment to Many Men.

David K. Jeffris is having plans drawn for the erection in this city of one of the most complete sash and door factories in the west.

The new building will replace the one recently destroyed by fire, and will be erected several feet north of the ruined mill.

The new structure will cost several thousand dollars and will span the race-way and will face on North River street south of the present Blodgett Milling company warehouse.

The new factory will be two stories high, and will be eighty-six by one hundred feet, containing a floor space of 85,000 feet.

The building will be erected on piles and will be mill constructed, which term applies to slow burning building material, which will make the building as near fire proof as possible. To further guard against fire the structure will be plastered on both sides with asbestos cement.

This new factory building will have four times the capacity of the mill recently destroyed by fire. The first floor will be utilized for offices and wood working machinery, the second floor to be used for the manufacture of cabinet work, bank and office furniture, screens and anything that might be expected of a modern planing mill. Work on the new building will be commenced within the next few days and will be rushed to completion.

When completed the mill will furnish work to a large force of hands and the citizens of Janesville can well congratulate themselves.

The Jeffris mill, recently destroyed, will either be remodeled or replaced by a brick structure.

O. H. Fethers and M. G. Jeffris, owners of the building, have not yet had a settlement with the fire insurance companies and until this is done, they will take no steps towards building.

## WEEKLY REVIEW OF TRADE

Backward Spring Has Caused a Quieter Tone in Business.

## SITUATION STILL FAVORABLE.

First Quarter of the Year 1899 Was Remarkable for the Trading Done—Failures Showed a Remarkable Decrease—Favorable Geographical Aspects.

New York, April 8.—Bradstreet's says:

"The quieter tone of distributive trade is even more marked this week than last, testifying to the unfavorable effect upon retail trade and indirectly upon jobbing distribution of the cold, backward spring and less favorable wheat crop advices. Other features of the week are a further quieting down of the excitement in iron and steel, though here lack of supplies and not lack of consumptive demand is assigned as the chief reason. Lumber is feeling the influence of expanding spring demand at many markets, and prices are very strong. The situation in textiles is little changed. Cotton is slightly lower on fuller crop movement, but manufactured goods are firm. Wool and woollens are rather quiet. The situation as regards prices is still a very favorable one, the list of staples advancing or remaining steady, being by far the most numerous, while bank clearings, railroad earnings, and all other obtainable measures of trade progress point to an immense business, speculative and otherwise, having been done during the first quarter of the year 1899.

"Wheat (including flour) shipments for the week aggregate 3,384,800 bushels, against 3,988,238 bushels last week. Corn exports for the week aggregate 2,724,654 bushels, against 3,411,442 bushels last week."

R. G. Dun & Co.'s weekly review of trade says:

"Failures in the first quarter, of 1899 were in number 2,772, against 3,087 last year, and the liabilities \$27,152,031, against \$32,946,586, a decrease of 17.6 per cent. Geographical aspects make the return peculiar, with a slight increase of defaults in New England, an increase of 13 per cent in the south-east, and 20 per cent in the central states. There was a decrease of nearly 40 per cent on the Pacific and southwestern states, 41 per cent in western states, and 40 per cent in middle states. No other year of the twenty-four covered by Dun's quarterly reports has shown as small failures during its first quarter, excepting 1880 and 1881, and no other except 1880 and 1886 as small liabilities per failure.

"Failures for the week have been 141 in the United States, against 232 last year and 17 in Canada, against 32 last year."

## Thurber Upholds Trusts.

Washington, April 10.—F. B. Thurber, president of the United States Export association, in testifying as to trusts before the industrial commission, took positive grounds in the support of trusts, saying that he at first had been prejudiced against them, believing that they would oppress the public with high prices. Mr. Thurber declared that the only trusts which could succeed for any length of time were those which relied upon a large turn-over and economies resulting from doing a large business. We are a nation of 75,000,000 people, with a producing power of 150,000,000, he said, and trusts were necessary that we might keep the people employed by reaching out for foreign markets.

## Missouri River Is High.

Omaha, Neb., April 8.—The Missouri river here is the highest it has been this season, and the ice is running heavily, but without apparent danger of a gorge. Up the river the gorges formed at Gayville, S. D., and again this side of Sioux City were of but few hours' duration. It is these broken gorges that have caused the swell in the river here.

## Italian Troops at San Mun.

London, April 8.—It is asserted in Rome, according to a dispatch to the Daily Mail, that the Italian warships have already landed troops at San Mun bay, province of Chi-Kiang, China, where the Italian government has been seeking a ninety-nine-year lease of a naval base and coaling station.

## Chicago Live Stock Markets.

Chicago, April 7.—Small Friday receipts of cattle were taken off quickly today at firm prices, demand ruling fairly strong for all classes. Shipping hogs were also bought freely at a shade better prices early, but the later trade in packing grades was sluggish, with prices barely up to the level of Thursday. Sheep held without quotable decline, but lambs again went slowly and weak to 10c lower. Today's receipts are estimated at 2,500 cattle, 20,000 hogs and 8,000 sheep. Pens were well cleared of all but plain and low-grade packing hogs, of which upward of 3,000 remained unsold.

Pepper; assessor, Clark Popple; justices or the peace, Wm. O. Howell, full term; James F. Trace, to fill vacancy, constables, S. F. Dean and Chas. Hawk. Bruce Dean slipped and fell on the ice, hurting his knee, which will probably be several months recovering. Arrived at the home of Mr. and Mrs. George Apfel on Wednesday, an eleven pound boy. Mrs. Wm. Cory, who has been confined to her home for some time, is improving very slowly. Misses Lucy and Emma Whitmore are spending their vacation at home. Elmer Quimby of Montana, and Mrs. Olive Dibble of Madison, spent a few days with their father. Mrs. Will Silverthorn's sisters, the Misses Lynch of Janesville, Sundayed with her. Lynn Cory is on the sick list. School in district No. 1 opened again on Monday, after a three weeks' vacation. Charles Fisher is improving slowly.

HAPPENINGS AT RICHMOND

**Surface Water Causes Great Inconvenience in Travel**

Richmond, April 7.—The surface water in some places on the roads is causing considerable inconvenience, as it is almost impassable. A very good time, we think, to look up places for the expenditure of the road tax money. In 1896, sowing of small grain was making very good headway at this time of year. It will be a very late spring, but none the less, we have yet to see the time that the Badger state has failed to yield a crop of some kind. A hearty welcome is extended to our new neighbor, who is moving onto Mr. Wardwell's place. Austin Langley was seen on our streets yesterday. Miss Alvira Peterson, who was visiting her sister Eunice, in Chicago, has returned home. Miss Martha Peterson is able to be about the house again. Willie Klinans, who has been staying at the Grove this winter is around these parts again. Dell Newbury sold a yearling colt to William Osborne; consideration, \$30. Howard Peterson purchased a fine heifer of D. Newbury. Geese are very plentiful in and around here, but up pretty high to be shot. Quite a number from here drew hogs to Whitewater yesterday. The price paid was \$3.50. Robins and meadow larks are welcome visitors. Henry Calkins will grind your feed on short notice. Bring it in.

Porter

Porter, April 7.—Mr. and Mrs. D. Casey of Janesville, were visitors on Monday. Herbert Earle has gone to Montana to spend the summer. Miss Katie Ford has returned home from Edgerton and began the spring term of school in the Stevens district on Monday. Miss Mamie Dooley has gone to Janesville to attend the High school. Mrs. Maggie Mooney, began school in the Eagle district on Monday. Miss Hattie Lay began school in the Hubbel district last Monday. Mr. Buckley, of Whitewater, was a visitor on Sunday. Some of our people attended the Easter ball in Edgerton on Monday evening. The roads are in a horrible condition at present writing. There are a few farmers just getting ready to husk their corn, which seems a little out of season. A great many of our people seem to be suffering from the grip. Amon Hanson, of Fulton has moved on the Bates farm.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft repeated experience of trustworthy persons may be taken for knowledge. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by People's Drug Co.

Indian Mayor Under Arrest.

Hartford, Ind., April 8.—A decided sensation was created by the arrest of Mayor A. F. Kinney, chairman of the republican county central committee, charged with shooting with intent to kill. Carney Capper, Kol Bedwell and Elmer Mustard, boys about 19 and 20 years of age, had annoyed the mayor Friday evening, and Capper claims the mayor discharged a revolver at him. The bullet struck Capper in the left shoulder and ranged around in the upper part of the arm, inflicting a severe but not dangerous wound. Capper states positively that it was the mayor who shot him, but the mayor denies all knowledge of the affair.

Threatened to Lynch a Negro.

St. Louis, Mo., April 8.—A telephone message received stated that a mob had left Alton, Ill., for Edwardsville, Ill., for the purpose of hanging the negro captured near Girard Tuesday afternoon for attacking Mrs. William Brown. Mrs. Brown is a farmer's wife, and lives near Alton. Howard was hurried to the county jail in Edwardsville.

Edwardsville, Ill., April 8.—While there is more or less excitement here over the prospect of a mob intending to lynch John Howard, the negro, everything is comparatively quiet.

L. Smith. Some additional thousands of cans have been destroyed after official survey, besides the 10,800 cans condemned when Inspector Gen. Breckinridge was here. ## One of the War Problems.

He shook his head and sighed. "It is really a great problem," he said. "What?" they asked. "Whether the war has furnished the kickers or the poets with the greater inspiration."

## Cost of Burning a Heretic.

In the course of an article sketching the histories of some early English ecclesiastics, a writer in the Windsor Magazine, London, tells what it costs to burn a heretic. The items are taken from the municipal records of Canterbury, dated 1535, and is as follows: For the expenses of bringing a heretic from London, 14s 8d; For 1½ loads of wood to burn him, 2s; for gunpowder, 1d; a stake and staple, 9d.
